EDUCATION

Indian Institute Of Information Technology, Guwahati (IIITG)   Expected 2025
BTech in Computer Science and Engineering **(CSE)**   Assam, India

SKILLS

Languages:	C++, C, Java, JavaScript, HTML/CSS
Frameworks and Libraries:	Bootstrap
Databases:	MongoDB, MySQL
Tools and Technologies:	Git, Linux
Coursework:	Data Structures and Algorithms, OOPs, DBMS, OS
Soft Skills:	Leadership, Teamwork, Consistent

EXPERIENCE

Google Cloud Career Practitioner(GCCP)   Nov 2022 - Jan 2023

- Designed and deployed systems on GCP using Compute Engine, Kubenernetes, etc. Completed Quests and labs on google cloud platform.

PROJECTS

Spotify Clone Webpage [(See Project)](#)

- I completed a project to create a Spotify clone webpage. It involved designing a user-friendly interface.
- Implemented features such as user authentication, music playback, and playlist management.
- Through this project, I gained hands-on experience in frontend development using HTML, CSS, and JavaScript.

Real Estate GUI [(See Project)](#)

- As a team, We created a Real Estate GUI application using Tkinter. The application featured an intuitive user interface allowing users to browse and search for properties based on various criteria.
- We implemented functionalities like property listings, image galleries, and contact forms, providing a comprehensive experience for potential buyers and sellers.
- Through this project, I gained valuable experience in building interactive GUIs and handling real estate data efficiently.

Checkers Game GUI [(See Project)](#)

- As a team, We developed a Checkers game GUI using Tkinter. The project involved creating a visually appealing game board with draggable pieces and highlighting valid moves.
- The application included features like single-player mode against an AI opponent.

EXTRA-CURRICULAR ACTIVITIES

- I actively participate in competitions of dance and music. I am always active for dance and music club of my college.
